

Allāhu_Akbar!! Whoever assists the Kuffar in replacing the Shari'ah from Allah for man-made laws is a Kafir even if he didn't intend to assist them:

Shaykh Sulaymān ibn Nāsir al-'Alwān (حفظه الله) said:

"Likewise, why do the Kuffār go to war & fight the Muslims, isn't it to substitute Shirk in place of Tawhīd? And to substitute Kufr in place of Ēmān? And to substitute man made laws in place of the Sharī'ah from Allāh? This is what they do without a doubt. And the one who assists them, regardless of whether he intended these objectives [of the Kuffār] or not, he has fulfilled their needs, and whoever fulfils the needs of the Mushrikeen by Shirk for their Shirk [to prevail], and has fulfilled the demands of the Imāms of Kufr for their Kufr [to prevail], and assisted the people of Kufr to succeed in substituting man-made laws in the place of the Sharī'ah from Allāh, then the one who does this is from the greatest of Mushrikeen, and from the greatest Imāms of Kufr.

If you see that a man is from the people of Shirk, he comes with idols and places them in the land of the Muslims for it to be worshipped besides Allāh, but then he isn't able to do that because he has no soldiers, troops or followers. So whoever employs [i.e. Permits] a group of people to place these idols in the lands of the Muslims to be worshipped besides Allāh, and they know the intent of this man...but rather they desire the world and its rubble, would we consider them as Muslims, while [they allow] these people to bring idols to the lands of the Muslims for it to be worshipped besides Allāh (جل وعلا). And what is the difference between them & those who support the Imāms of Kufr against the Muslims, while they know that the Kuffār want to substitute Shirk in place of Tawhīd, and to substitute Kufr in place of Ēmān, and to substitute man-made laws in place of the Sharī'ah from Allāh"
